

SUSTAINABLE WASTE MANAGEMENT PROJECTS

Since the inception of the Landfill Communities Fund (formerly the Landfill Tax Credit Scheme) in 1996, GrantScape has provided nearly £30m in grants to sustainable waste management projects. In April 2003, a change in the regulations meant that waste-related projects were no longer eligible for funding.

The projects that GrantScape funded have now successfully completed. Final reports were produced where projects involved research and development.

Please contact us at helpdesk@grantscape.org.uk if you would like to find out more about any of the projects listed below.
