

## Caird Bardon Community Programme NEWSLETTER MARCH 2011

### Total Awarded Amount Approaches £1.5 million

The past 12 months have seen almost £450,000 awarded to 19 highly deserving projects across Leeds. This takes the total amount awarded by the Caird Bardon Community Programme to just short of £1.5 million – quite an achievement in 4 years!

As another year passes by, the Programme has seen a new woodland planted, a new community centre built and others updated. Churches have been repaired, children's play areas have been installed and local parks improved.

Steve Ward, Site Manager from Caird Bardon said:

"We are thrilled to be supporting Leeds by providing much needed funding for so many varied and exciting projects."

Your project could be only an application form away from being awarded the money to make your community's dream a reality, so what are you waiting for?

### Temple Newsam Phys-Cap Park

The dream is about to become real for Phys-Cap, a local charity dedicated to improving the quality of life for children suffering from severe physical disabilities. Work is due to begin on creating a £200,000 exciting new play area at Temple Newsam Park which will be fully inclusive for children of all abilities.

The project was awarded a grant of £35,000 from the Caird Bardon Community Programme last year.
