## CHAIRMAN'S WELCOME

Welcome to GrantScape's "Making a Difference". Since 1997, our grant-making throughout the UK has supported significant long-term improvements to the environment and has greatly enhanced community facilities. The examples shown on the following pages are but a small selection of the impacts that our grant recipients have achieved.

We are particularly grateful to Waste Recycling Group Ltd, CWM Environmental Ltd and Caird Bardon Ltd whose funding has helped make these achievements possible.

GrantScape is committed to building on its position as a leading environmental grant-maker, with a particular focus on the conservation of wildlife and habitats. Our highly successful Biodiversity Challenge Fund provides the foundations for this, and we are extremely grateful for the support we have received from our professional advisors. These include Natural England, Countryside Council for Wales and the Environment Agency.

I hope that you enjoy reading this review.

Andrew Ladds  
Chairman

## CHIEF EXECUTIVE'S STATEMENT

GrantScape is an innovative charity, committed to offering a first-class service. Over the years, we have risen to the challenges presented by changes to the Landfill Communities Fund and have adapted where necessary.

We are constantly seeking to improve the services and support that we offer. A key example was the introduction in 2007 of an on-line application process to streamline our grant-making. User feedback on this has been very complimentary and we intend to use it for all future grant programmes.

GrantScape also now produces a regular e-newsletter, OutLook, which provides information on our grant programmes and other services. This is distributed to almost 1,000 addresses, at a fraction of the environmental impact of the previous paper editions, and can be subscribed to via our website.

Steven Hargreaves  
Chief Executive
