

Fourteen years in grant-making

In 2011 GrantScape sees its 14th anniversary in charitable grant-making. Looking back, it is incredible to think that we have given out over £70 million to support communities and the environment. In doing this, we have set up, delivered and managed more than 30 separate Funds in different areas across England and Wales. The projects GrantScape has supported through these Funds have made a significant difference to many communities and our natural environment.

GrantScape has firmly established itself as one of the UK's leading charitable grant-makers. Our processes, systems and exceptionally skilled staff have made applying for a grant as transparent and straight forward as possible.

GrantScape continues to go from strength to strength and we are currently operating seven Community Funds on behalf of six clients, with the expertise and enthusiasm to do a great deal more.

We offer a wide range of grant-making services. These extend from managing community funds for corporate and local authority clients, to consultancy work supporting other grant-makers and training for applicants who would like to improve their chances of securing a grant. For a complete list of our services, please look on the website under Our Services.

If you would like to discuss the support that GrantScape can provide for your grant-making, please contact a member of the Team on 01908 247630.

Wishing you all the very best for the future.

Dave Bramley
Chairman
