

Helping you manage your Landfill Communities Fund

About GrantScape

GrantScape is a charity which specialises in designing and delivering top quality, cost-effective grant programmes under the Landfill Communities Fund. Since 1997, we have firmly established ourselves as one of the UK's leading grant-makers.

Since 2009 we have held accredited status with Entrust, the regulator of the Landfill Communities Fund. We remain one of only a handful of Environmental Bodies that can demonstrate that we meet the high grant-processing and governance standards necessary.

Our team has many years' experience of working with Landfill Operators wishing to support the communities that live near their operations. This sits particularly well with GrantScape's core purpose – to enhance the environment and strengthen local communities through our grant-making activities. To date, we have successfully established and delivered over 30 community funds across England and Wales, giving over £70M in LCF grants to these communities.

GrantScape's reputation has been built around providing a trustworthy and value-added service. We have a proven track record of managing the Landfill Communities Fund which provide grants towards worthwhile and life-enhancing projects. Please see the reverse side for more details of our services.

How can we help you?

If your organisation is seeking to benefit local communities around your operations, GrantScape is very well placed to help. Our service to you **is free** because our fee comes out of your LCF donation and we will collect and return your 10% tax liability from independent contributors. We will also ensure the projects you support leave no long term liabilities.

We will also help by:

-  Designing a grant programme under the Landfill Communities Fund tailored to your specific objectives and branding requirements
-  Promoting your organisation's involvement and community support
-  Managing the entire grant application process smoothly, using our tried-and-tested online, paper-free system which our applicants have consistently confirmed to be very user-friendly
-  Monitoring levels of interest into your fund to ensure sufficient applications are received
-  Establishing an independent advisory group to get relevant local input into the decision making process
-  Administering all aspects of grants that are awarded, including payments and progress monitoring
-  Providing professional support for applicants throughout the process, from start to finish
-  Keeping you informed of changes to the Landfill Communities Fund

Why choose GrantScape?

GrantScape has a long and successful heritage of community and environmental grant-making around England and Wales. You can therefore be confident that:

-  You will receive excellent value for money, because our processes have been tuned over the years to be as efficient and effective as possible.
-  You will be working with an independent organisation in whom you can have full trust
-  You will be supported by a respected charity with a highly committed staff team and robust internal controls
